

USG STRUCTURAL PANEL INSTALLER TIP SHEET

Cold-Formed Steel Framing - 54-97 mil (16-12 ga.)

Fastener Basics

- In accordance with PER-13067 (Subfloor) and PER-14076 (Roof Deck), the minimum screw pattern is 6 in. (153 mm) o.c. (6R10.z-6.8).
- Framing and fastener selected may affect minimum end distance and minimum flange required.
- Fasteners should be driven straight and shall be flush with the panel surface.
